Experience

UX Designer @ Microsoft (Contract)

July 2019–Present

Leading cross-platform sharing and collab efforts, identifying drawbacks and frame solutions, designing holistic sharing experiences with polished UI and meaningful interfaces; leading design sprints, and brainstorming sessions; interviewing customers and working with user researchers to test design explorations; collaborating with engineers, data scientists and project managers to plan design iterations and polishing existing experiences; collaborating with OneDrive design team and partner Microsoft teams of designers, PM's and engineers to implement coherent sharing experience across Microsoft products.

UX Design Intern @ City of Seattle

September 2018–July 2019

Working on building a design system library for seattle.gov, organizing and facilitating cross-team meetings, conducting research and documentation of existing patterns, creating deliverables for design system elements.

Designer @ University of Washington

August 2016–June 2018

Web and graphic design for Graduate and Professional Student Senate. Conducted user research, built information architecture, prototyped, redesigned, and user-tested GPSS website.

Aircraft Mechanic @ US Navy

June 2010–October 2014

Designed and produced aircraft marks and symbols in accordance with industrial design standards.
